VIE

VIE is an Educational Travel operator offering specialised STEM tours throughout Europe, North, Central and South Americas, China, India, Australia, Africa and beyond. VIE specialises in EVENTS such as STEM SISTERS and MISSION TO MARS to TEXAS Johnson Space Centre (where only 10 students and one free teacher are needed) as well as a host of other fabulous trips.

As a small bespoke company we endeavour to make the trip as enjoyable for Teachers as it will be for their students. All of our tours include a 24/7 Visions Ambassador staying with you in resort

KIM MITCHELL is Scotland based working with Scottish schools for 11 years tailoring trips to schools needs. We are also happy to attend parents evenings

VIE also hosts arts, ski and sports tours. Our offices are located in GLASGOW, West Sussex and the USA.
